PART - A**SECTION - A****[M. M. 10****(Unseen Comprehension)**

1. Read the passages given below carefully and answer the questions that follow.

Do any **two** passages :

(a) Penguins are among the most popular of all birds. They only live in and around the South Pole and the continent of Antarctica. There are 17 different kinds of penguins and none of them can fly. The largest penguin is called the Emperor Penguin and the smallest kind of penguin is the Little Blue Penguin. Penguins spend as much as 75% of their time underwater, searching for food in the ocean. When they are in the water they dive and flap their wings. They are great swimmers and have thick layers of fat to protect them from the bitter cold. Even in their freezing cold conditions, penguins still have to watch out for attackers such as killer whales and seals.

(b) Vitamins and minerals are natural substances found in a wide range of food and are essential to maintain a healthy body. Vitamin A keeps eyes and skin healthy and helps to protect against infections. Vitamin A is found in milk, eggs and vegetables such as pumpkin, carrots, spinach and broccoli. Vitamin B is good for nervous system and is found in green vegetables. Vitamin C helps the immune system by fighting against infections. Vitamin C is found in citrus fruits like strawberries, kiwi, guava, peppers and tomatoes. Vitamin K helps blood to clot. Beans, peas, turnip contain Vitamin K. Calcium is necessary for healthy teeth, bones, hair and nails. Potassium controls muscles and nerves and prevents high blood pressure. All vegetables contain potassium. Iron is essential for red blood cells. Iron is found in vegetables like spinach, leeks and mushrooms. Vitamin C also helps in iron absorption in the body. We should avoid vitamin loss by leaving the peel on. Vegetables should not be soaked in water as it leads to loss of Vitamin B and C.

(c) Recycling is an important way of caring for our planet. Human beings use many new products every year and create a lot of garbage. By recycling the things we don't want, we can reduce the need to make new things. Metals, glass and paper can be easily recycled. Apart from recycling, there are other things that we must do to save our natural resources. We should reduce the amount of plastic, paper, electricity and water that we use. Keep plastic bags carefully and reuse them instead of buying new ones. Write on both sides of a paper and do not print things unless necessary. We should remember to switch off fans, lights and electrical appliances when they are
