#### EN/EBHALI/9/21

#### INSTRUCTIONS

- 1. This Question Paper Booklet contains five Sections. Section "A" Mathematics contains 50 questions of 4 marks each. Section "B" English, Section "C" General Science, Section "D" Social Studies and Section "E" Intelligence contain 25 questions each of 2 marks per question. In all, the paper consists of 150 questions for a total of 400 marks. Answer all questions.
- **2.** The test is of 3 hours (180 minutes) duration.
- 3. The Question Paper Booklet is of 24 pages. Please check and ensure that the Question Paper Booklet is complete and contains all the pages.
- 4. The Question Paper Booklet is in English only for all the candidates.
- 5. Answer all questions in the OMR Answer Sheet only.
- 6. The OMR Answer Sheet is inside this Question Paper Booklet. When you are directed to open the Question Paper Booklet, take out the OMR Answer Sheet and fill the particulars carefully with blue/black ball point pen only.
- 7. Darken only one circle as your answer for each question. If you darken more than one circle for the same question, your answer will be treated as wrong.
- **8.** There is no negative marking for a wrong answer.
- 9. Do not make unnecessary marks on the OMR Answer Sheet or fold or attempt to deface it. If you do so, your OMR Answer Sheet will not be evaluated.
- 10. Use Blue/Black Ball Point Pen only for writing particulars on this page and for writing answers. Do not use pencil.
- 11. Rough work is to be done on the space provided for this purpose in the Question Paper Booklet only and not on the OMR Answer Sheet.
- 12. On completion of the test, hand over the OMR Answer Sheet to the Invigilator before leaving the Room/Hall.
- 13. You are allowed to take away this Question Paper Booklet with you.
- 14. The CODE for this Booklet is A. Make sure that the CODE printed on the OMR Answer Sheet is the same as that on this Question Paper Booklet. In case of discrepancy, report the matter immediately to the Invigilator for replacement of both the Question Paper Booklet and the OMR Answer Sheet.
- 15. Do not write your Roll No. anywhere else except in the specified space in the Question Paper Booklet/OMR Answer Sheet.
- 16. Do not use white fluid for carrying out any correction on the OMR Answer Sheet.

#### SECTION A

### **MATHEMATICS**

- 1. The value of  $1 + \frac{1}{1 + \frac{1}{1 + \frac{1}{9}}}$  is
  - (1)  $\frac{29}{19}$
- (2)  $\frac{10}{19}$
- (3)  $\frac{29}{10}$
- $(4) \frac{10}{9}$

- 2. Find the sum of  $3\overline{2}$  and  $5\overline{4}$ .
  - (1)  $\frac{78}{3}$
- (2)  $\frac{58}{3}$
- $(3) \quad \frac{58}{9}$
- (4)  $\frac{78}{9}$

- 3. What should be added to  $-\frac{7}{3}$  to get  $\frac{3}{7}$ ?
  - (1)  $\frac{21}{58}$
- $(2) \quad \frac{58}{21}$
- (3)  $\frac{47}{21}$
- (4)  $\frac{50}{21}$
- 4. The difference between two whole numbers is 66. The ratio of the two numbers is 5:2. The two numbers are
  - (1) 60 and 6

(2) 100 and 33

(3) 110 and 44

- (4) 99 and 33
- 5. If angle A and angle C are two opposite angles of a parallelogram, then
  - (1) angle A > angle C

(2) angle A = angle C

(3) angle A < angle C

- (4) None of these
- 6. The lengths of the diagonals of a rhombus are 16 cm and 12 cm respectively. Find the length of each of its sides.
  - (1) 30 cm

(2) 10 cm

(3) 20 cm

- (4) 28 cm
- 7. If the mean of the following data is 8, then find the value of x:
  - 2, 4, 8, 6, x, 5
  - (1) 17

(2) 23

(3) 48

(4) 25

  - (1) Pictograph
  - (2) Histograph
  - (3) Circle chart
  - (4) None of these

#### SECTION B

#### **ENGLISH**

Read the following passage and answer the following questions (Q. 51-53) by choosing the most appropriate option.

#### **Marie Curie**

Marie Curie grew up in Warsaw, Poland where she was born on November 7, 1867. Her parents were both teachers. The child of two teachers, Marie, was taught to read and write early in life. She was a very bright child and did well in school. She had a sharp memory and worked hard on her studies. As Marie grew older, her family came upon tough times. Poland was under the control of Russia at that time. People were not even allowed to read or write anything in the Polish language. Her father lost his job because he was in favour of Polish rule. Marie lost her elder sister and mother to typhus and tuberculosis respectively. After graduating from high school, Marie wanted to attend a university, but this wasn't something that young women did in Poland during the years covering the period 1800 - 1900. The university was for men. However, there was a famous university in Paris, France called the Sorbonne that women could attend. Marie did not have the money to go there, but agreed to work to help pay for her sister Bronislawa to go to school in France, if she would help Marie after she graduated. It took six years, but, after Bronislawa graduated and became a doctor, Marie moved to France and entered the Sorbonne. Marie arrived in France in 1891. Marie lived the life of a poor college student, but she loved every minute of it. She was learning so much. After three years she earned her degree in Physics.

- 51. A lot of emphasis was laid on Marie's education because
  - (1) Marie was the sole earning member of the family.
  - (2) Marie was born into a family of teachers.
  - (3) education of girls was very important in Poland.
  - (4) she was the only member of the family who could read.
- **52.** Which of the following statements about the passage is **not** true?
  - (1) Marie's elder sister died of tuberculosis and mother of typhus.
  - (2) Marie's father was a patriotic man.
  - (3) Marie passed out of the University of Sorbonne.
  - (4) The Polish universities discriminated against girls.
- 53. Marie thoroughly enjoyed the university years
  - (1) while her sister worked hard to pay the fees.
  - (2) although she did not want to study medicine.
  - (3) despite living on meagre funds.
  - (4) but was denied the university degree.
